

Frontier/Vz Bargaining Report #20

7/21/26

Sisters and Brothers,

Due to an unfortunate medical emergency involving a family member of the committee, we were unable to meet with the company today.

Below is a link to the strike vote, as we must conduct a strike vote with the contract expiration soon. Voting **YES** does not guarantee that we will strike. However, it does signal that each member is prepared to take action if negotiations break down and the company refuses to agree to a fair contract.

We will also send out the strike vote with the mobilization structure. If you know anyone who is unable to access the link, please have them reach out to their **Unit Director or AVP** for assistance.

Thank you for your continued solidarity and support as we work toward a fair contract.
