Verizon Bargaining Report #44

October 29, 2026

Dear Sisters and Brothers,

The committee met with the company today to discuss the current state of bargaining. We reminded the company that the tentative agreement was rejected by 85% of the employees who voted.

We made it clear that if the company expects employees to shoulder a greater share of health care costs, then the company must come back with increased proposed wage increases to offset that additional financial burden.

Please attend the call tonight with District 6 Vice President Derrick Osobase at 6:30pm.

WE ARE ASKING ALL MEMBERS TO REGISTER FOR THE CALL PRIOR TO THE MEETING ON THURSDAY
